# Getting you home faster and stronger

Our staff prides itself on providing comprehensive short-stay rehabilitation services through our **VitalStrong™** program. VitalStrong™ has been developed to provide state-of-the-art clinical and rehabilitation services utilizing progressive technology, with clinical oversight by a physiatrist – a doctor of physical medicine and rehabilitation.

Our team of experts, including licensed physical and occupational therapists and speech language pathologists, provide therapy services up to seven days per week.

At FutureCare Old Court we are proud to offer our innovative **CAMPStrong** Program, short for Comprehensive Amputee Management Program. FutureCare has teamed with a local expert on prosthetics and orthotics to create a comprehensive program to follow you from surgery to home and beyond.

## Healthcare Services

## State-of-the-Art Rehab Equipment

**Hawks Grips** – Manual soft tissue mobilization instruments used to break down scar tissue and other soft tissue restrictions.

**VitalStim** – Neuromuscular electrical stimulator which re-educates muscles involved in swallowing. The therapist can project a live session onto a computer screen for the patient to see real time results.

**Jintronix** – A mobile virtual reality kiosk perfect for patients at high risk of falls, or those with orthopedic, cardiac, or neurologic diagnosis.

**BITS: Bioness Integrated Therapy System** – Interactive touchscreen program for use in PT, OT and SLP. The computerized activities focus on visual scanning, visual motor, visual pursuit and cognition.

**Game Ready** – Cold compression system for musculoskeletal and soft tissue injuries.

**FEES** – Fiberoptic endoscopic evaluation of swallowing.

**E-Stim, Ultrasound, Diathermy and Vital Stim** are available at all FutureCare locations.
